

## TESTIMONIAL

*We are currently a service contract customer of Century Equipment's and have been for the past 4-5 years. We have a technician perform our monthly service work along with correcting any other problems that may have arisen with our equipment. It is a very cost effective program for us to use, not to mention the piece of mind knowing that our equipment is being properly maintained by a factory trained technician.*

Don Wilshire, General Manager  
Canewood Golf Club  
Georgetown, KY

*Red Hawk Run Golf Course in Findlay, Ohio switched from an on site mechanic to a service with Century Equipment for the 2007-2008 season. We were very satisfied with the service, not only did we save money on payroll, but the equipment was better maintained which resulted in decreased down time and increased production by the crew. We renewed the contract for the 2008-2009 season.*

Michelle Bowen, General Manager  
Red Hawk Run Golf Course  
Findlay, Ohio
