Powerful Engine

The Kubota® 60 hp turbocharged liquid cooled, 4-cylinder diesel engine provides an abundance of power to handle the most demanding mowing conditions. The 4500-D and 4700-D are the most powerful mowers in their class, with 117 ft-lbs of torque at 58 hp net and normal engine speed of 2600 rpm.

Contour™ Plus Cutting Decks

The Contour™ Plus cutting technology takes quality of cut to a whole new level. Air inlet pockets keep the grass standing tall for the cleanest possible cut and a modified rear discharge opening disperses clippings more evenly. An optional mulching kit and optional high height of cut blade are also available.

4 Wheel Drive

The Groundsmaster® 4500-D and 4700-D feature a unique, parallel hydraulic traction system that assures full-time, bi-directional 4 wheel drive. Parallel hydraulic flow between front and rear wheels means that you will have 4 wheel drive assistance in turns, enabling easier trimming around objects without tire scuffing and dependable traction on hills and wet terrain.

Productivity

The Groundsmaster 4500-D, with a 9' width of cut, lets you mow up to 7.6 acres per hour. With a 12.5' width of cut, the Groundsmaster 4700-D lets you mow up to 10.5 acres per hour, giving you a big boost in productivity

Operator Comfort

The operator area of the Groundsmaster 4500-D and 4700-D was designed to make work more comfortable with amenities like a large operator platform, multi-size beverage holder, 12 volt outlet, storage box, deluxe seat, and portable radio holder. Operators will also be pleased by the lower sound levels and the additional storage area behind the seat that's large enough for a water cooler, trash bucket, and other items

Attractive Striping

Rear rollers on the Contour™ Plus decks provide an attractive striping effect while you mow, greatly enhancing the finished look of your turf.

Easy Service

Decks can be raised or removed quickly, and enclosures can be pulled off without tools so technicians can get at everything effortlessly.

Durable Design

Proven rugged frame, drivetrain, and components ensure durability and long life. Heavy duty welded steel decks and frames provide extra durability and long life
