

Remember all the times you said there had to be a better way? YOU WERE RIGHT!

300 Gallon Spray System: Provides high capacity for large area spraying.

Tough Spray Booms: Heavier, more durable boom construction. Booms can be raised or lowered from the operator position electronically.

Hydrostatic Vehicle Drive System: Provides a high torque traction system that doesn't spin out and scuff turf.

35.5 HP Diesel Engine: The Kubota® diesel engine provides exceptional horsepower.

Pro Control Computerized Controller: Pro Control™ Computerized Controller enables the sprayer to apply spray products at precise rates.

Multi Pro®
5700-D

Precise Application: The Spray Pro control system is uniquely tied to the drive wheels and automatically adjusts to changes in ground speed to ensure constant application rate.

Precise Application: Double lobe/breakaway cams return boom to spray position after impact with obstacles.

Total Visibility: The operator rides out-front for total visibility and control.

Ground Drive Proportional Pumping System: The Multi Pro® 1250 sprayer is a dedicated spray application vehicle equipped with a positive displacement diaphragm pump tied directly and proportionally to the speed of the vehicle.
