

REELMASTER FAIRWAY MOWERS

A Better Cut, From Start To Finish!

LIGHTWEIGHT DESIGN

- Lightweight machine combined with large turf tread tires produce less impact on turf.

REDUCED SIMPLIFIED MAINTENANCE

- Improved access to service components results in less time performing maintenance tasks. EdgeMax™ Bedknife produces edge retention up to three times longer than standard bedknives. All routine service points are located on the left side. Hood opens rearward for easy access to the engine.

SUPERIOR QUALITY CUT

- DPA cutting unit design features provide more precise adjustments and longer edge retention. New blade material produces tough reel with increased wearability and high quality cut. Powered rear roller brush maintains a consistent height of cut and prevents clumping.

OPERATOR COMFORT

- Standard machine features provide operators with friendly adjustments. Entry and exit from either side of the machine, controls at fingertips of the operator, comfortable seat and tilt steering wheel, rear radiator moves heat and noise away from operator, all resulting in less fatigue.
